

# The Power Transmission Market

## The "Pain"

As Electrical Grid Management Teams work to grow profitability while moving towards net zero decarbonization targets, the daily struggle of balancing demand, supply, and changing real-time dynamics makes decision-making and risk analytics highly challenging

## The "Solution"

RYAILITI's game-changing AI platform offers a different approach to overcoming change dynamics, solving real-world challenges accessing trapped siloed data, delivering dynamic responses to complex changes while removing pain points, increasing efficiencies and mitigating bias in scenario analysis
